
Title: The Servents of IT

Author: Geritain Dehugh

As written in one of my books I had concluded that some strange blood structured human copies, better known as The changelings, were the workings of Zaio and Wendle. However recent discoveries have led me to believe other wise. Long before our time and that of even Wendles, there existed a small band of magicians who spent their life in devotion to creating a powerful book. The books name at this time is unknown but many of the Keepers call the book IT. This answered one of my questions about Galistad, father of the woman I love, for he spoke of a devotion to a higher being or object known as IT. With the aid of an ancient spirit known as Natasha. I begged that Natasha lead me to a warrior who could defeat Galistad and put my troubles behind me. As many might recall, I love his daughter but he does not want me to have anything to do with her. His attempts to get rid of me have caused me much grief and so I seek to rid him from my life by finding a warrior to defeat him. The spirit of Natasha took me to Trinsic where I met with a man named Darimar. I believed that Darimar was a warrior who Natasha

led me to for the
purpose of hiring him to
slay Galistad.

Unfortunately it turned
out that Darimar is
actually working with
Galistad on a project to
create a powerful tomb.
They are the Keepers of
IT. They took me in for I
am somewhat a skilled
scribe but to be honest I
am a far better warrior
and even more so then
that a more skilled smith.

In any case they have
allowed me access to
some books in which I am
working on translating.

The book that they finish
however will still remain
in the language to only
allow the educated to
understand it. Through
the many books I have
read I have come to
understand more of the
origin of the Changelings.

They are created
servants bound to a book
called Book of the Dead.

A page was torn from
the book long ago and
came to the possession
of Wendle. Wendle did
not know the origin of
the page but used it to
aid his malicious plans.

One Keeper who took me
by surprise when I set
eyes on him was Bricrue.

But this was not Bricrue
with the blackened eyes
but that of the real

Bricrue. I enquired as to
how this could be and
was answer with On my
so called departure from
the world, my body which
laid in a field was not
tended to. It was not
properly checked to see
if I still live nor was the
body taken for proper
burial preparations. One
named Darimar who was
in the location at the
time found and healed me.

Though I desired to die I
learned that Yosh was a
traitoress subject to the
project. It was the least
I could do to repay the
mans kindness for bringing
me back from near death.
I am now a keeper and
aid to the project of
the creation of the great
book. Among the keepers
I recognize a few faces
being those besides
Bricrue, Tinnile and
Wendle and of course
Galistad. Galistad has
given me word that no
harm will come to me so
long as I devote loyalty
to the aid of the
construction of the book
as well as keeping a
distance from my Kallie.
It surprises me that
Wendle and Galistad are
part of this coven for
their past is only detailed
as being that of corrupt
ways. Perhaps some can
change over time but I
shall keep an eye on
those who and act as a
loyal subject to Darimar
in the ways of reporting
any amiss that might
come from those two. It
is said that the
changelings were created
to act as powerful
warrior in protecting the
progress of the books
creation. However they
are bound to the Book of
the Dead being that they
were created from one
of its pages. Should the
book be destroyed their
existence will cease.
